

Project Management Advanced

"Of all the things I've done, the most vital is coordinating the talents of people toward a certain goal." Walt Disney

In an age characterised by rapid and continuous change, projects have become the core of strategic digital transformation—they are *how* change happens. Having the talent to implement evolutionary initiatives successfully is a critical capability that is going to give organisations a competitive advantage to navigate the Fourth Industrial Revolution.

The Project Management MasterClass (Advanced) will enable you to work with relevant stakeholders to scope, plan, implement and evaluate a work-based project using relevant tools and techniques to represent and measure key performance parameters.

Rationale

Organisations that succeed in this age of disruption are those that adapt rapidly to new opportunities and challenges. Forward-thinking organizations are building better products and creating stronger customer relationships with a speed that hasn't been seen before. To achieve this speed in a VUCA (volatile, uncertain, complex, and ambiguous) world, organisations are relying more and more on the expertise and experience of project managers. Without a doubt, project managers are essential in tomorrow's changing landscape.

Target Audience

The Precipitate Series of MasterClasses is designed for leaders and champions of change who are accountable for identifying and driving the complex and strategic changes required for businesses to adapt to shifting realities and redefine themselves for the digital age.

The Precipitate MasterClasses are transformational learning experiences that precipitate, or speed up, the growth and success of *Novaturients* – those who seek to bring about powerful change in their lives and organisations.

Content Outline

- Module 1: Project Management and Digitisation: The challenges of project management; understanding and embracing new technologies
- Module 2: Project Planning: Scoping a project; developing a project plan; measuring key performance parameters
- Module 3: Project Implementation: Monitoring project implementation; measuring results; taking corrective action; stakeholder management
- Module 4: Project Management in the Fourth Industrial Revolution: Change agility and intellectual capacity; resource dynamics; adversity quotient

Duration

Three days of immersive knowledge X-Change and dialogue followed one month later by a group coaching and portfolio building session.

Credits

The Project Management MasterClass (Intermediate) is an accredited skills programme. Participants complete a workplace assignment in order to be assessed against registered unit standards.
