

Project Management Intermediate

"Managing a project without project management is like playing football without a game plan." Katherine Tate

In an age characterised by rapid and continuous change, projects have become the core of strategic digital transformation—they are *how* change happens. Having the talent to implement evolutionary initiatives successfully is a critical capability that is going to give organisations a competitive advantage to navigate the Fourth Industrial Revolution.

The Project Management MasterClass (Intermediate) will give you an overview of project management and empower you to embrace PMBOK methodologies and apply them to high-priority projects that will enable your organisation to remain relevant and competitive in the digital age.

Rationale

Organisations that succeed in this age of disruption are those that adapt rapidly to new opportunities and challenges. Forward-thinking organizations are building better products and creating stronger customer relationships with a speed that hasn't been seen before. To achieve this speed in a VUCA (volatile, uncertain, complex, and ambiguous) world, organisations are relying more and more on the expertise and experience of project managers. Without a doubt, project managers are essential in tomorrow's changing landscape.

Target Audience

The Precipitate Series of MasterClasses is designed for leaders and champions of change who are accountable for identifying and driving the complex and strategic changes required for businesses to adapt to shifting realities and redefine themselves for the digital age.

The Precipitate MasterClasses are transformational learning experiences that precipitate, or speed up, the growth and success of *Novaturients* – those who seek to bring about powerful change in their lives and organisations.

Content Outline

- Module 1: Foundations: The nature of projects; the project life cycle; project management vs general management; project management structures, processes, and tools
- Module 2: Current trends in project management: Project management in a VUCA world; contemporary challenges for project managers
- Module 3: The Role of the Project Manager: People management skills; communication and assertiveness; motivating a project team
- Module 4: Project Management in Action: The GRPI Model; workplace assignment preparation

Duration

Two days of immersive knowledge X-Change and dialogue followed one month later by a group coaching and portfolio building session.

Credits

The Project Management MasterClass (Intermediate) is an accredited skills programme. Participants complete a workplace assignment in order to be assessed against registered unit standards.
