Exit Level Outcomes

- Demonstrate an understanding of the supply chain management environment within an organisation.
- Demonstrate an understanding of the influence of performance and risk within a supply chain management environment.
- Contribute to the development of a supply chain strategy and operational plans for the organisation.
- Manage the execution of a supply chain strategy for the organisation..

The KLM Empowered X-Perience

X-Ploration

For each of the SIX integrated learning blocks, learners explore content on their own before engaging with others. Guided by self-study plans and diagnostic self-assessment, they formulate their own insights to share.

X-Tension

Workplace application assignments allow learners to put their new learning to use on the job. Under the guidance of mentors, and with access to performance and wellness support, learners hone their skills and add value.

X-Citement

Learners receive a welcome letter and an X-Perience Map detailing the flow of their qualification. An orientation session helps them to understand the benefits and career options linked to the qualification.

X-Change

Learners attend facilitator-led sessions, either in class or online, to share their learning and refine their skills in a safe environment. Collaborative activities and peer feedback build learning synergy and allow learners to master specific skills.

X-Cellence

Each learner's progress is measured against learning outcomes through formative and summative assessment. Final examinations and presentations are used to obtain an accurate picture of overall understanding and mastery of the content.

Learning Blocks

1

Introduction to the Supply Chain Environment

ID	Unit Standard Title	Level	Credits
336713	Demonstrate an understanding of the supply chain environment	5	10
